Sir Subject :- Regarding Bye-Laws regulating the system of Scavenging and to introduce Special Sanitary Cess, in Madhugiri, Municipality

Sir

I have the honour to state that the Council in their Meeting held on 31-3-1940, had framed the above Bye-Laws to introduce the scavenging system in Madhugiri Town

The necessity for introducing the above Bye-Laws was deeply felt by the Council as a number of houses have increased considerably with the increase of Population The Council could not increase the scavenging staff adequately an account of the Financial stingency in the Municipality For want of sufficient staff, is obliged to neglect many parts of the Town and consequently reduced to an insanitary position The Council have therefore thought it desirable to obtain sanction of Government for introducing the scavenging Bye-Law and have therefore passed a resolution unanimously in their meeting held on 17-3-48, which can be produced in the enclosed file If the scavenging Bye-Law is introduced the Council expects an income of not less than Rs 3400/- Per Annuam, by the Special Sanitary Cess levied as per Mohatarfa demand and necessary provision of introducing the above Bye-Law is made in the Budget Estimate of 1948-49

A copy of draft Bye-Laws were sent to the Compiler, Mysore Gazette for publication of the above Bye-Laws, calling for objections if any to the proposed Bye-Laws with in one month from the date of notice 30th June 1948, and the same was published in Mysore Gazette on 8th July 1948 No objections have so far been received in this office

As such I request that sanction of Government may kindly be accorded for enforcing the above Bye-Law at the earliest convenience.

An extract of the Resolution dated 8-8-1948, is herein enclosed for favour of kind reference. Connected records accompany

I have the honour to be

With reference to your letter No I 4884-5, dated 20-10-48, I have herein enclosed two copies of the Bye-laws and Rules as desired by you.

Yours faithfully,

PRESIDENT,
Shimoga Town Municipal Council

By-laws framed by the Chaudfontaine Municipal Council under section 40 (4) (c) of the Public Health Act, 1936, for providing the daily conservancy system by the Municipal Conservancy Department and the Government Inspectorate, Liège, dated 16th November 1946.

1 Every privy or latrine to be constructed within the Municipal limits shall be located only on such site and in such position as may be approved by the President or the Chief Officer

2 It shall be so constructed as to permit of the daily removal of night soil

3 It shall be constructed in accordance with a plan to be approved by and shall not obtain a licence from the President or the Chief Officer

4 The privies in existence on the date on which these by-laws come into force and constructed with a pit for the reception of night soil shall within sixty days from the date of coming into force of these by-laws be so converted as to permit of the daily removal of night soil and such conversion shall be in accordance with the plan approved by the President

5 Every privy or latrine shall have an opening on a conservancy lane such as will permit daily removal of night soil from such a lane Such opening should be provided with shutters or trap doors which will, when closed, close the opening completely.

6 The Municipality will arrange the removal of night soil through its own agency on payment of a special sanitary cess fixed for the removal of night soil from private latrines

7 For every house intended to accommodate 10 persons or less there shall be at least one privy

8 The sides and the floor of the chamber for the receptacle shall be constructed of hard, smooth stones or brick work plastered with cement, or other non-absorbent material the floor shall be so sloped that any liquid discharged on it shall readily flow to an outlet from which soil for the chamber shall be of

building or any brick or stone masonry structure shall be lined with cement plaster from the floor level upto a height of 4 feet above the seat level.

(9) Every privy shall be provided with a receptacle to receive night soil of a capacity of not more than one cubic foot. 10 Arrangements must be made for the separation of urine from faecal matter

(11) The owner or occupier of any land on which there is a privy shall keep such privy without nuisance by a sufficient roof and closure by means of suitable material or hedge from the view of persons passing by or residing in the neighbourhood.

12 The floor, walls and the latrine must be made impervious by cement concrete and plastered with cement or by flooring with Cuddapah or hard stone slabs with neat cement pointing so that urine or other putrefying substance may not accumulate inside.

13 Every privy shall be so constructed that the bottom of the receptacle for night soil, urine or ablution water shall be at a level not less than 6 feet above the ground level.

14 Every person who shall construct a privy shall not without the written permission of the President, construct such privy within a distance of 50 ft away from any well or stream of water used or likely to be used by man for drinking or other domestic purposes.

15 A pucca drain shall be constructed and plastered with cement and a soak pit also must be constructed and the water of the privy should be let into the soak pit through a drain.

16 Any person infringing any of these by-laws shall be liable on conviction before a magistrate, to a fine not exceeding Rs 50/- and in the case of continuing offences, to a fine not exceeding 5/- for every day during which such infringement continues, provided that the total amount of fine shall not exceed Rs 100/-
